1. The UB (Security Police) is preparing biographical records on all men who in 1939 belonged to the Boy Scout organization and not to the Communist Party (sic). All men up to the age of twenty-five are required to fill out new biographical questionnaires which are like the questionnaires used by the personnel divisions in factories. The same forms must also be completed by persons engaged in work of a secret nature.
2. Young men are being recruited by the UB to be sent as agents into the Polish youth organizations and the Communist Party. The recruiting headquarters are located at Piotrkowska Street 101, Lodz.
3. People who did not attend the agitation meetings held prior to the recent election have been denounced by those in charge of the meetings.
4. The construction of a new textile factory building in Lodz, to occupy 80 hectares along Dobrowska Street as far as the Augustow section, has been held up. The roof is already on the building, but the interior has not been completed. The army desires space for a new military airfield south of Lodz, next to the Augustow section, but the responsible ministry has not as yet given its approval. This airfield would occupy the land on which the textile factory is being constructed, and would require the demolition of the factory.
